Professional Experience

ByteSigma Technologies Pvt Ltd | Pune, India
Sr. Consultant / Tech Lead | March 2021 - Present

- Led multiple Flutter development teams as Tech Lead, improving project delivery efficiency by 30% through streamlined workflows and effective client communication.

- Architected and delivered scalable web and mobile applications for diverse clients, ensuring high-quality, secure code and adherence to project timelines.

- Mentored a team of junior and mid-level developers, fostering skill growth, conducting code reviews, and improving overall team productivity.

Dars Innovations Pvt Ltd | Noida, India
Sr. Flutter Developer | October 2018 - February 2021

- Optimized application performance across several Flutter projects, achieving a 25% improvement in responsiveness and load times through advanced code refactoring and architectural enhancements.

- Collaborated with cross-functional teams to design, develop, and launch new user-centric features, significantly enhancing overall user experience and client satisfaction.

- Engineered the 'Filoo App,' a complex e-commerce and ordering system featuring Mangopay integration for secure, compliant payment processing.

BrainMobi Technologies | Noida, India
Android Developer | May 2014 - September 2018

- Successfully developed and delivered over 40 native Android applications from concept to launch using Java and Kotlin for a diverse global client base.

- Engineered the 'Ideal Smart' healthcare app from scratch, integrating Bluetooth (BLE) hardware including smart bands and weigh-in scales, alongside third-party services like Google Fit.

- Drove a 20% increase in client satisfaction rates by consistently delivering robust, bug-free features and providing timely application maintenance.

Key Projects

- **Ideal Smart - Healthcare & BLE Integration (Java):** Architected and built a comprehensive health tracking application that synced with Bluetooth-enabled smart bands and scales to monitor user metrics. Integrated Google Fit and implemented Firebase for notifications and chat.

- **TDSE - Basketball Training Platform (Flutter):** Developed a community and resource platform for basketball trainers. Engineered features for knowledge sharing, resource distribution, and business scaling for the sports industry.

- **Filoo App - E-commerce & Payment Gateway (Flutter):** Built a complex marketplace and ordering system connecting customers with service providers. Integrated the MANGOPAY payment gateway to handle secure financial transactions.

Education

Sachdeva Institute of Technology | Mathura, India
B.Tech in Electronics and Communication Engineering | 2007 - 2011

Awards

Employee of the Year (2019) • Rising Star Award (2017) • Employee of the Quarter (7 times) • Employee of the Month (14 times)
